DATA REQUESTS

The following questions relate to your 2022 WMP Update submission.

Question 1

On June 8, 2022, BVES submitted errata to its 2022 WMP Update. In this errata, BVES updated the actual and projected WMP costs for 2020 through 2022 in Table 3.1-2:

	2020 Actual	2021 Actual	2022 Projected
2022 WMP Update May 6, 2022	\$9,154.37	\$12,087.51	\$16,239.82
WMP Errata June 8, 2022	\$17,208.68	\$21,332.28	\$20,438.97

BVES's June 8 errata did not update Table 3.2-1: WMP Electricity Cost Increase to Ratepayers.

a) Are the values in Table 3.2-1 in BVES's May 6, 2022 WMP submission correct, in light of the updated WMP costs for 2020 through 2022, outlined above?

b) If the answer to part (a) is no, please provide a corrected Table 3.2-1 with the actual and projected increases in electric costs to ratepayers due to wildfire mitigation activities.

Response

a) The values in Table 3.2-1 are still correct.

b) The errata was submitted because Energy Safety explained that the values in Tables 3.1-1 and 3.1-2 needed to include all expense items those in rates and not in rates. Bear Valley had previously only listed expenses not in rates."
